HEALTH POLICY COMMISSION

The Summit & The Network

MEDITeH Beyond & MEDITeH Network

MEDITeH Beyond 2026 is the international summit dedicated to Digital Health and Telemedicine. Promoted by **Diplomatia**, through the working group and think-tank **Health Policy Commission (HPC)**, the event brings together Institutions, diplomatic representatives, health authorities, universities, research centres and companies from the Mediterranean, Africa and the Middle East.

From Summit to Transnational Network

The **first edition of MEDITeH Beyond**, in 2024, marked the founding act of a structured collaborative initiative in digital health and telemedicine.

What began as a high-level international Summit will evolve into a **permanent transnational network** connecting institutions, scientific bodies and industry stakeholders across the Mediterranean, Africa and the Middle East.

“

MEDITeH is not an annual event.
It is an ongoing platform & network.
